Deandra Shuler 7 hours ago (edited) Trump said something to her that spoiled her mood. Trump and his daughter do have a very odd relationship but sometimes the wealthy go beyond the moral barriers. However, I think in this case, it's more about what Trump said to Melania. After all, Melania does not have eyes in the back of her head so would not know what Ivanka is doing. Also.

I voted for Trump. Still GREAT with that. But yes, as a woman when I first saw this I could see straight off that Trump passed up his wife for his favorite child. It absolutely broke my heart. Their marriage may not have as many years shared, but that moment should have been shared with his wife - not his daughter. :-)

garbage.. Melanie changed the smile because someone was praying and Don was smiling about the "rain" being a blessing from God. Melania was showing serious respect.

He doesn't seem like he really values her that much in public settings and IMO he

He indeed made the strongest eye contact with Ivanka when she leans, but Melania not aware of that assumes she is the one, then in the very last momento DJT realizes Melania's thinking and mumbles to her "not you"

Nonsense. It hurts your cheek muscles to smile all the time. Models know when to give it a rest.
